

Administering Medications to Students

School personnel shall not administer prescription or nonprescription medications to students unless appropriate administration cannot reasonably be accomplished outside of school hours. Medication is not available to student's parent administer the medication during the school day.

Medication may be administered to students by school personnel whom a registered nurse has trained and delegated the task of administering such medication. For purposes of this policy, the term "medication" includes prescription and nonprescription medication. The administration of medical marijuana shall be in accordance with state law regarding the administration of medical marijuana to qualified students.

The term "nonprescription medication" includes over-the-counter medications, homeopathic and herbal medications, vitamins and nutritional supplements.

Medication may be administered to students by the school nurse or other school designee only when the following requirements are met:

1. Medication shall be in the original properly labeled container. If it is a prescription medication, the student's name, how often it is to be administered, and name of the prescribing health care practitioner shall be printed on the container.
2. The school shall have received written permission to administer the medication from the student's health care practitioner in accordance with Colorado law.
3. The school shall have received written permission from the parent/guardian to administer the medication to the student.
4. The parent/guardian shall be responsible for providing all medication to be administered to the student.

Self-administration of medication for asthma, allergies or anaphylaxis

A student with asthma, a food allergy, other severe allergies, or a related, life-threatening condition may possess and self-administer medication to treat the student's asthma, food or other related, life-threatening allergy, and condition. Self-administration of such medication may occur during school hours, at school-sponsored activities, or while in transit to and from school or a school-sponsored activity. Student possession and self-administration of such medication shall be in accordance with the regulation accompanying this policy.

Authorization for a student to possess and self-administer medication to treat the student's asthma, food or other life-threatening allergy, and condition may be limited or revoked by the school principal after consultation with

the school nurse and the student's parent / guardian inability to responsibly possess and self-administer such medication.

Student possession, use, distribution, sale or being under the influence of medication inconsistent with this policy shall be considered a violation of Board policy concerning drug and alcohol involvement by students and may subject the student to disciplinary consequences, including suspension and/or expulsion, in accordance with applicable Board policy.
